This article provides a list of minor errata that appear in published manuscripts which are too minor to formally submit to the publisher, but may still offer clarification to the reader. In all cases, the scientific results and conclusions are in no way affected, and corrections are limited to simple typographical errors.

In the article “*Third-order perturbative lattice and complex Langevin analyses of the finite-temperature equation of state of nonrelativistic fermions in one dimension*”, Eq. (65) should read

$$\beta PV = \ln \mathcal{Z} = Q_1 \sum_{n=1}^{\infty} b_n z^n. \quad (1)$$
